

December 2009

Dear Prayer Supporters, Family & Friends,

Luke 2:11 says "For unto you is born this day in the city of David a Saviour, which is Christ the LORD." As we celebrate this blessed season here in Kenya, it is a different season than where most of you are. It is summertime and warm. But the hearts of many are united to celebrate the birth of JESUS.

An exciting event for the children is the Christmas program. Kathy, Darin and I began practicing the Christmas carols in October! The children are memorizing their parts and we're working on the costumes. Our prayer is to reach the family and friends who attend.

In September, I was privileged to teach the "Salvation Series" flashcards at the Saturday Children Outreach. We are concerned the children do not understand their "lostness". This remains a priority in the children's' ministry.

The highlight in October was the first Ladies Meeting of Utawala Baptist Church. Kathy, Mary and I all shared lessons and my topic was encouraging each other. It was a time for the women of the church to bond together. We also were able to share ideas regarding future ministries.

Our team continues in the pursuit of property for Utawala Baptist Church. The rental facilities are over-crowded so please pray for GOD's wisdom as we move forward.

The rainy season has arrived so water and power rationing is over. Some parts of Kenya have had flooding but the Nairobi area has been spared. We are so thankful!

Please note that I have a new address here in Kenya.

Judy Andre

P.O. Box 337

Embakasi, Kenya 00521

A new post office has opened close to my house and I do not have to go across the city to check mail now. What a blessing!

As you celebrate this Christmas season, I ask that you pray for me and my family as holidays can be a difficult time to be apart. I pray that you and your family will remember the "real reason for the season" and that you will pray for Kenyans to know Jesus as their personal Saviour.

Serving in Kenya,

Judy Andre

*For unto Us,  
a Child is born...*
