

Dear All,

A quick message from the Mathews:

1. Just an update, all of the kids are healthy. Thank you for your prayers for Joelle. She is much better and hasn't had any more problems.
2. A blessing that could have only be sent from God: Jamey and Kandi are expecting! They are excited!

Please pray for:

1. It is urgent that Kandi does not get malaria. It would be very dangerous for her and the baby.
2. Continue to pray for the Bible study that Jamey is doing. The men and women are so interested and under deep conviction.
3. Pray for the salvation of the people attending the Bible study. Jamey must literally start from The Beginning and teach the Bible as if it were elementary Sunday School. Many are starting to ask some good questions.
4. Wisdom - Jamey is setting up the solar panels for the house. Plenty of sunshine...

Finally, Jamey and Kandi didn't ask to put support on this email, but I know that support for missionaries has been down due to economic problems here in the States. They are feeling it. Please pray that their needed support would be met in order for them to fulfill their requirements/mission.
